

Tramper Hire: Current Status at Hire Locations

As lockdown eases greater opportunities are expected for Tramper hire. We are corresponding with partner sites regularly and will update this list accordingly.

Although restrictions are easing we would ask you to continue supporting relevant Government and partner site guidance put in place to minimise risk.

Things are changing quickly! While we will do our best to maintain an up to date list we are not generally informed by our partner sites of changes in opening and provision of facilities. We therefore recommend that you visit the website and/or social media of the particular location.

Please be aware that **many locations now require pre booking.**
