

Advertise Your Accessible Accommodation

Countryside Mobility provides a fantastic opportunity to promote your accessible accommodation to 4000 people per month and at the same time support the charitable work of the non-profit Countryside Mobility scheme www.countryside-mobility.org

Countryside Mobility is an award winning mobility equipment hire scheme run by the charity Living Options Devon. The scheme improves access to the outdoors for people with limited mobility visiting the South West. Our members love our all-terrain mobility scooters and wheelchair accessible 'Wheelyboats' which give them freedom to explore outdoor visitor attractions with friends and family. More than 96% of our members say that the scheme has greatly improved access and increased their enjoyment of the countryside and 99.4% said they would recommend countryside mobility to others.

Over 50% of our service users plan their trip to the South West specifically to use our equipment, and are therefore looking for convenient, accessible accommodation to make the most of their visit to the region. We feel that your accommodation would be a perfect partner to list on our website because you can provide accredited, quality accessible accommodation for our users. Our website boasts over 4000 page views per month, so you can be sure that your site will receive more visitor traffic.

We are offering low cost advertisement space for accessible accommodation providers on our website to help our service users find accessible accommodation and to help promote your business: <http://www.countryside-mobility.org/accommodation>

£50 per year: your accommodation will be included in the 'featured' section of our listings and will always appear at the top of the relevant county page - there will only be 5 featured listings per county.

£30 per year: your accommodation will be listed below the featured accommodation listings in each relevant county page.

Each listing will also be promoted through our social media accounts

Working with Countryside Mobility represents a good opportunity for your business and by advertising you will be supporting the expansion and development of the non-profit Countryside Mobility scheme.

If you would like to support the scheme and list your accommodation then please email: accommodation@countryside-mobility.org or telephone: **01392 822372**
