- the **mine** that they owned.

The **Godolphin family** built this home to live in.

It is called **Godolphin House**.

Godolphin House is very old.

It used to have more rooms, but some of the rooms were knocked down.

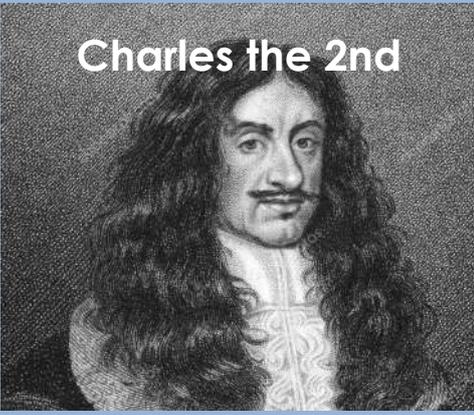

The **Godolphin family** planted a **garden** for guests and parties.

Can you find the **Garden** at **Godolphin**?

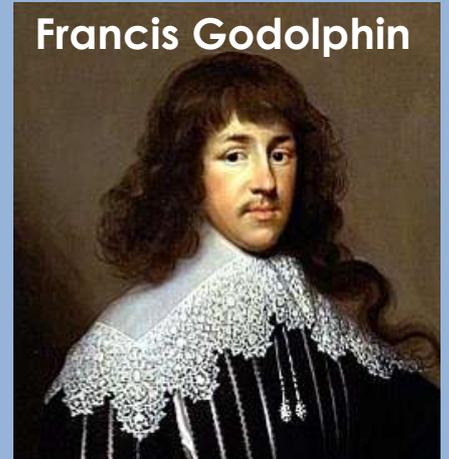

Charles the 2nd

Charles the 2nd was a **king**. He was friends with the **Godolphin** family.

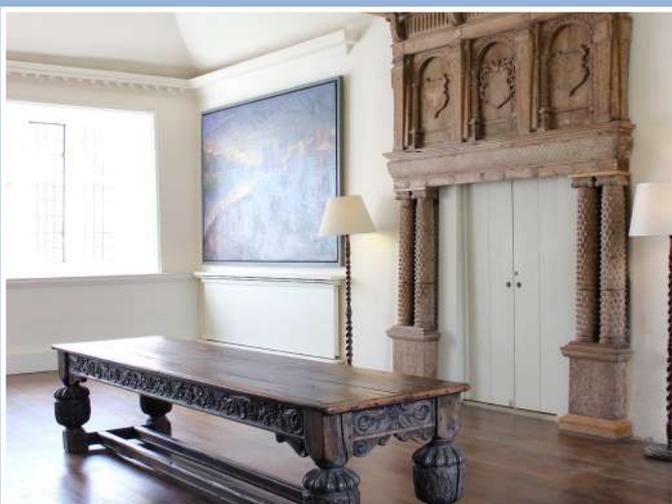

Francis **Godolphin** helped Charles the 2nd when he needed help.

Francis Godolphin

It is thought that the King stayed at Godolphin House.

Can you find the King's Room?

This is the **King's Room**.

The **Godolphin family** made lots of money from their **mine**.

Workers used to work in this **mine**, looking for **tin** and **copper** in the ground.

The rocks they were looking for were found deep under the ground and difficult to get to.

Tin is a metal found in the rocks under ground. It is used to make **tin** cans.

Copper is also a metal found in the rocks under ground. It is used to make **copper** coins.

Have you seen **tin** cans or **copper** coins at home?

The **mine** at Godolphin is called the **Great Work Mine**.

This is only a small part of the **mine**,
the rest is underground.

Look down through the grill
to see the deep hole.

This **sign** means that
Godolphin's **mines** can be
dangerous.

Caution means 'be careful'.

Now you know that

1. **Godolphin's** gardens were made so that they were good for parties.
2. The **Godolphin family** were friends with **King** Charles the 2nd.
3. Deep **Mines** were dug at **Godolphin**, to look for tin and copper!

We hope you enjoyed your day.
